We may not have a classroom at the moment, but we are welcoming school groups! The information below is a guide, but don't hesitate to get in touch to discuss what could be arranged to suit your group's learning adventure!

13th Sept -20th Oct, 10:30 am - 2:00 pm

Colour-Me-Wild (ish)!

A fun, educational day, especially designed to teach **Reception groups** all about colour and camouflage in the animal kingdom. We've adapted this award-winning workshop so that we can still run it without our classroom this Sept/Oct.

Please note that this shortened version of our popular workshop is held in the marquee, which is not heated.

Autumn Term, all primary age groups - **Outdoor Animal Adventure!**

Covering your choice of topic, your Animal Adventure will be tailored to your group for a really fun day of discovery and learning, amongst our amazing animals!

Animal Adventures are based on:

- A focussed discovery trail card, to guide your learning around the Park, at your own pace
- A 30 minute education session in the marquee
- 10 minute hands-on encounters (with an invertebrate or reptile) in the heated summer house. In small groups, max 10 pupils at a time.

Our most popular topics:

- Habitats & Adaptation
- Predators!
- Endangered Animals
- Tropical Rainforests
- Animals from Africa
- Paws, tails and whiskers
- Minibeasts
- Animal Super Senses ...

*The full new Education Programme will be issued as soon as we have a date for our replacement classroom
